

MAIL INKdraw

Powerful software for design and print control.
Compatible with any HSA printer.

Some benefits of the software

- WYSIWYG
- WINDOWS based
- Advanced design functionality
- Read and print ready
- Cost calculation
- Full barcode library
- Free of charge

Design features:

TEXT, DATE, LOGOS, NUMBERING, BARCODES AND MAIL OBJECTS is easily created and precisely positioned. All objects are managed by drag and drop.

External resources and database management

DATABASE : all common types of database can be loaded (.csv, .txt, .xls, .mdb)

LOGOS : any bitmap can be used.

DATABASE MANAGEMENT: searching, sorting, de-duplicate, and printlist

Printer and job status

Printer status appears dynamically: Ink level, service count, life count etc.

The software provides complete print report about what the unit has printed: Amount, weight, time etc.

User level control

Different user levels with password can be activated for higher degree of data security.

Touch mode

The touch interface can be re-designed by the customer to fulfil the needs for simplicity or a higher level of security. Bespoke interfaces can be made by the HSA Mail programmers.

Cost calculation

The cost calculation function provides precise information about quantity of ink, coverage, cost etc.

Read and print

Easy to do with Mail INKdraw. Read & Print is an integrated part of the software and free of charge.

Network features

Utilizing Ethernet or serial connection, it is easy to interface the printer with another system.

Variable barcodes and logos

MAIL INKdraw offers a large library of barcodes including 2D such as DATAMATRIX.

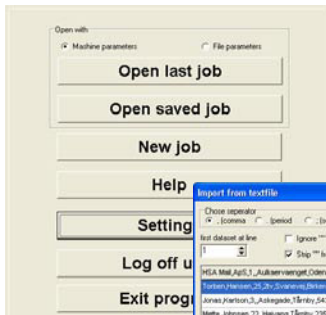

The barcode library is regularly updated and free of charge.

With the drag and drop functionality, it is easy to link to a database for printing variable barcodes or logos.

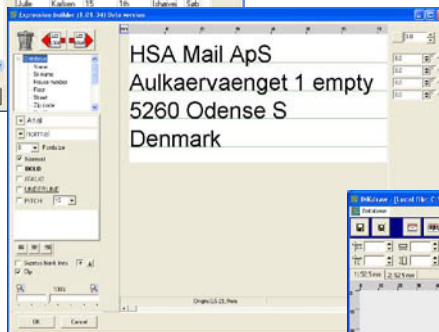

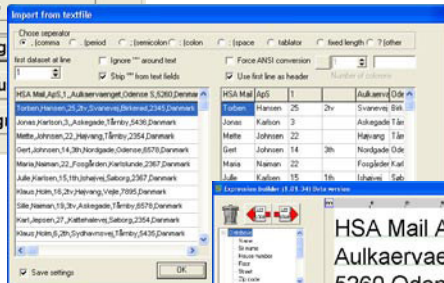

MAIL INKdraw

Use wizard to prepare a print job

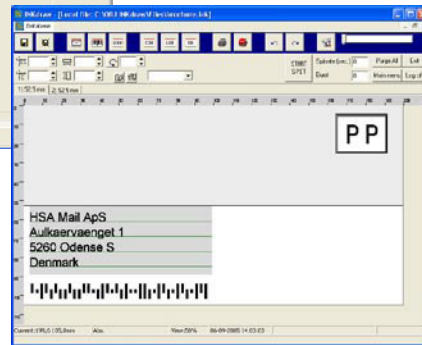

A wizard guides the user step by step creating a new job.

Only a minimum of training is needed for using the software.

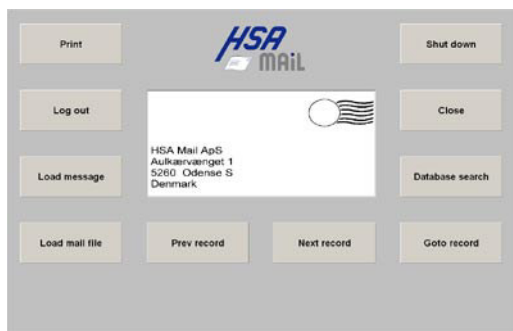

With the Expression Builder there is no need for special computer knowledge.

A variety of options are available: Sorting, De-duplication, Stack & bundle outputs etc.

A clear and easy to manage layout is important when handling a job

Touch Mode

Design your own touch interface or make use of the pre-design. Bespoke touch interfaces for special applications can be made by the HSA Mail programmers

Print Mode

A good view of the addresses being printed is important in the print manager it is easy to manage the start/stop points, reprints etc.
